“Success is achieved. We will work to increase your success!”

WHAT WE DO AND HOW WE DO IT

Commercial and Industrial Contractors nationwide are benefiting from the convenience and expertise of the recruiting service provided by Grus. Grus interviews, hires and employs skilled craftsmen for both commercial and industrial Contractors. Grus is also expert at locating skilled craftsmen to accept permanent positions and go right to work for our Clients as their employees.

Since 1990 when we first opened our doors, commercial and industrial construction contractors have relied on us to provide quality construction personnel for their projects, large or small.

We stand apart from other construction staffing companies. How so? First-hand knowledge and experience. Our team of recruiters includes expert journeymen in the various commercial and industrial trades. Grus was founded by journeymen that know the challenges associated with skilled labor on construction projects, namely: skill level, budget and completing the project on time. The extensive experience in these areas has enabled us to streamline the process and deliver exactly what our clients need; working within budget to deliver skilled trades people as quickly as possible.

For nearly 30 years industrial and commercial construction and manufacturing companies have relied on Grus Construction Personnel. Grus can send you proven craftsmen with outstanding performance evaluations or recruit and dispatch

new hires with the skills you need for your temp to perm or permanent positions.

We also know our clients place a high value on maintaining control. Grus Construction Personnel allows clients total control of the methods, performance standards and production schedule required for their projects. Many contractors have not wanted or for other reasons not been able to use temporaries on their project and Grus has the solution for them. Grus can fill positions cost effectively with candidates that can even start the assignment as employees of the client where necessary.

RESOURCES

Whether its supervisory positions, journeymen or apprentice personnel you're looking for, our vast pool of skilled talent is at the ready. For nearly three decades, we've been providing staff for general construction and facility maintenance issues in multiple industries including power, refinery, chemical, steel, and pulp and paper.

Grus is succeeding as the #1 construction staffing firm in the country. Monthly over 1,000 qualified Tradesmen register with Grus. Visit our Choose Personnel page to read and choose profiles of available craftsmen with the skill set to match your needs. Sort the list of available personnel by distance to your jobsite. *(Continued on next page)*

“Whether its supervisory positions, journeymen or apprentice personnel you're looking for, our vast pool of skilled talent is at the ready.”

Our Skilled Tradesmen have years of experience in commercial and industrial construction. Telephone us now or Request a Quote and let us start working for you.

Over 150,000 skilled workers are registered with Grus. Most importantly the skilled craftsmen that work through Grus commonly continue to return to us for assignments.

WHY CONTRACTORS & CRAFTSMEN LIKE GRUS

Grus is an active member of Associated Builders and Contractors (ABC) through which we contribute to the success of the construction industry.

Construction Personnel by Grus International, Inc. is committed to being the best employer in the industry for construction workers. We believe our mission is two-fold: to staff our client's projects with the highest quality of skilled trades people available and to foster an environment in which the quality of our workers continues to increase. We are dedicated to delivering quality and efficiency in one package. Grus offers our workforce the security of permanent employment and a diversified work experience through our many and varied clients. The service Grus provides offers benefits to both the general contractor and the skilled worker. These dual-benefits include:

- Higher pay and more benefits for our construction personnel.
- Multiple construction projects offering diversified experience opportunities.
- Skill advancement due to high quality & quantity of our clients
- Improved job security.
- Database with tens of thousands of skilled tradesmen eager and qualified for placement.
- Client control over skill levels, cost and schedule.

Visit our website: www.gruspersonnel.com

From our website you can request a quote and even choose from the available craftsmen in your area. Join forces with a construction recruitment firm that was formed by journeymen who have experienced first hand your circumstances and jobsite conditions. Give us the opportunity to demonstrate a more successful experience staffing your jobs.

Grus works extremely hard to be the country's premier construction staffing Company.
