

# Together We Will Build A Stronger America

## COMPANY BACKGROUND:

NSC Technologies, Inc. (NSC) is a Virginia based professional staffing contractor that specializes in offering comprehensive contingent staffing solutions to a wide range of industries, nationally.

The company's corporate facilities are located in Portsmouth, Virginia with additional NSC offices in San Diego CA and Honolulu HI. Our Strategic partnerships offer full service capabilities in Baltimore MD, Washington DC, Atlanta GA, Nashville TN, Columbus OH and Raleigh NC, with regular and continuous expansion.

**Since 2000, NSC has been committed to offering a flexible staffing program and cost-effective contract labor solutions that allow our customers to focus on the core goals and business demands.**

NSC possesses the management, infrastructure and expertise to handle turn-key projects. Backed by capital assets and strategic partners, NSC is able to ensure the quality and timeliness of these important engagements, focusing on the renewable energy market.

Partnering with NSC affords our customers access to a dynamic pipeline of qualified talent with a wide range of skills, experience and flexibility.

## MISSION:

To become a premier provider of value-added staff augmentation and contingent labor solutions, serving the diverse needs of the many industries we support. NSC shall establish meaningful, long-term relationships with our customers, exceeding customer expectations, and enhancing the quality of life of our workforce.

## **UNIQUE SERVICES:**

NSC is committed to developing a customized staffing program, with a focus on your organization's workforce goals. Our professional staffing teams possess sourcing and recruiting experience and will approach each client relationship with a desire to understand your culture, operations and overall business goals.

Our augmentation services are comprehensive in that NSC will only provide talent that has been fully vetted and evaluated by our recruiting team. Our workforce is required to participate in a comprehensive pre-placement background screening and skills evaluation process and subject to our Drug Free Workplace Initiative. We offer our workforce and clients access to our online ordering and time collection process.

**In an effort to attract and retain the most talented workforce, NSC offers a wide range of benefit programs.**

### **Project Management Services**

NSC offers our clients a dedicated project management approach and assigns a professional staff member to serve as a single point of contact responsible for program implementation, compliance and ongoing client satisfaction. Our dedicated NSC project manager will serve as a liaison between your management/supervision and our workforce. In addition, we offer Vendor on Premise and Onsite Management Services to ensure quality, safety and on-time delivery of contingent services.

### **Vendor Management Services**

NSC has developed a unique approach to the Vendor Management platform which is customized to capture the on-boarding and contingent workforce life cycle goals of our clients. Combining technology and proven human asset management solutions, NSC will customize our processes to meet your organization's core needs.

### **Testing, Screening & Certifications**

Our workforce is carefully evaluated participating in a wide range of online, written and practical assessments.

### **Safety**

The NSC safety team is certified to conduct OSHA-training to the 30-hour level, industry specific training, and

orientation programs. OSHA related training is conducted in accordance with industry standards.

### **Quality Assurance**

Our QA teams perform periodic and on-going workforce and client evaluations to ensure our services are exceeding client performance goals. We offer a wide range of reports which capture Key Performance Indicators and rate our services against industry trends.

### **Commitment**

Offer More than a Decade of Proven Experience  
Develop Long-Term Strategic Partnerships  
Afford our Clients the Flexibility to Select a Customized Service Model  
Invest in the Latest Management, Recruiting & Workforce Management Tools

### **Past Performance**

Department Of Energy Thomas Jefferson National Accelerator Facility, Mentor-Protégé
